PROJECTS

Manusman - 1st place winner at Manus London Hackathon

London | Mar 2026

Lead UI designer

- Built a full screen, transparent AI overlay for calls and email that cut manual note-taking time by **an estimated 30% per meeting**.
- Designed a **minimal overlay UI and React single-page site** that clearly walk users the six core tools and funnels them to a singular CTA.
- Helped define pricing tiers and onboarding that target a **10–20% trial-to-paid conversion**, in line with typical B2B SaaS benchmarks.

UAL Creative Shift

London | Jan 2026 - Mar 2026

Leadership Programme & Marketing Consultant

- Selected as the 1st place winning team in a competitive pitch for IRIS Worldwide X BRITA.
- Served as **Project Lead** on a competitive agency-style brief, **steering a cross-functional team** and client stakeholders to deliver a campaign aligned with commercial objectives and an ambition to **lift brand recognition by ~10%**.
- Built a **performance-measurement framework** for a 3-month digital campaign, using data analysis (supported by a **Microsoft Business Analytics course**) to track engagement rate, event conversion (targeting >50% attendance from sign-ups), and brand uplift as primary success metrics.

RIVAL Studio

London | Mar 2025 - Jul 2025

Resident Creator Intern

- Collaborated with the marketing team to plan and execute a social media strategy, managing assets in a content management system and applying SEO best practices to **lift average engagement rates by around 15–20% over baseline**.
- Created **UI assets in Blender** and implemented them in Unity, building a clean asset pipeline for interactive scenes.
- Converted 3D renders into **Web-ready VR** formats using Blender tools, enabling immersive experiences to be embedded directly on the website.

OTHER ACTIVITIES

Vice President of Marketing · CCN London

Keyboard · The Unnamed

April 2026 - Present

Dec 2025 - Present
